# Before you send the PDF

An artificial test page. All names, values and references are invented.

## 1. Check the details that matter

| | |
|---|---|
| **Reference** | CN-026 / O0-I1-l |
| **Example amount** | 1,280.50 (not a real invoice) |
| **Small-text test** | Keep every digit, decimal point and letter readable. |
| **Use** | Compare at normal size, then inspect small details. |

## 2. Thin lines and smaller text

8 pt test: CN-026 | 1,280.50 | O0 I1 l | 14:35 | Keep the original file.

0.25 pt line

0.5 pt line

1.0 pt line

## 3. Colour versus meaning

Current copy

Review copy

Original retained

A small file is useful only if the reader can use it.

A raster copy is an image of this page; it has no OCR text layer.

This fixture is not signed, fillable or intended as an official document.
